

Constant Force Springs

Jubilee Clips

Constant Force Springs

A tightly coiled wound band manufactured from type 310 stainless steel. When extended a constant force is exerted and this is maintained as the spring is allowed to close. The full force is effective until the spring is in the fully closed position.

Constant force springs are used to provide reliable solderless continuity in earthing in low and medium voltage joints and termination systems.

Part No.	Cable Range Diameter (mm)	Internal Diameter (mm)	Width (mm)	Thickness of steel (mm)
CFS10	9-15	10	12.6	0.15
CFS16	14-22	16	19	0.25
CFS17	19-29	17	19	0.25
CFS22	24-37	22	19	0.25
CFS24	32-50	24	19	0.35
CFS32	44-70	32	19	0.50
CFS40	58-94	40	19	0.50

Jubilee Clips

AISI 430 stainless steel general purpose clamp with zinc plated carbon steel screw - for connecting pipes and hoses.

Part No.	Range (mm)	Pack Qty
JC13-20	13-20	100
JC18-25	18-25	100
JC25-35	25-35	100
JC27-40	27-40	100
JC35-50	35-50	100
JC40-55	40-55	100
JC55-70	55-70	100
JC70-90	70-90	100
JC85-100	85-100	Each
JC160-180	160-180	Each
